CITY OF RIALTO

AGENDA REPORT

For City Council, Rialto Utility Authority and Redevelopment Agency Meeting of March 22 2011

TO: Honorable Mayor and Council Members

Honorable Authority Chair and Board Members Honorable Agency Chair and Board Members

APPROVAL: Mark Kling, Police Chief/ Interim City Administrator/ Executive

Director

FROM: Donna Vickers, Interim Chief Financial Officer

SUBJECT: Resolutions amending estimated revenues and appropriations for the

FY10/11 budgets of the City, Rialto Utility Authority and

Redevelopment Agency.

DATE: March 15, 2011

BACKGROUND:

Key elements in the budget process that keep the budget document useful include: 1) the initial development of estimated revenues and appropriations; 2) interim monitoring; 3) one-time adjustments (i.e. grants, projects); 4) mid-year review; and 5) necessary modifications of budget appropriations and estimated revenues.

The mid-year review process is intended to address significant variances that are found and to make budget adjustment recommendations to Council. These recommendations are based on the results of staff analysis of revenues and expenditures for the first six months of the year, as well as, based on new information which was not available during the budget process.

The resolutions recommended for Council approval authorize adjustments to estimated revenues and expenditure appropriations that are deemed necessary for various reasons, including:

- 1) Revenue receipts increased or reduced due to current trends (e.g., economy, development, program levels, State estimates)
- 2) Expenditure adjustments associated with unanticipated savings or necessitated by changes in expected revenues or new requests based on available resources.

This report is intended to document the findings of the mid-year review and provide Council with the information needed to approve the recommended resolutions. Since the Exhibits provide detailed line item changes that are being recommended, this section of the report will highlight only key observations.

ANALYSIS/DISCUSSION

As the current recession entered into its third year, the FY11 adopted budget already included budget cuts to reflect the economic downturn that has resulted in the weakening of revenues. Strategies to reduce costs have included: 1) Maintaining the 52 vacant positions which are frozen, as well as removing the related funding from the budget (30 of those positions are savings to the General Fund); 2) Drastically cutting capital expenditures; 3) Reducing other services and supplies; 4) Obtaining compensation concessions from employee groups; 5) Procuring discounts or price freezes from vendors; 6) Utilizing volunteers, grant funded contract staff and interns whenever possible; 7) Proposing new fees for cost recovery of certain activities. Operating expenditures are projected to exceed operating revenues by a total of \$10.5M, necessitating an advance from the following sources to balance the budget:

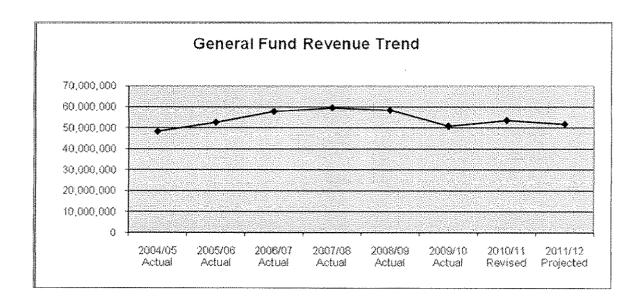

- 1. An additional one time loan repayment from RUA of \$4M.
- 2. The remaining deficit of approximately \$6.5M is funded through the use of General Fund contingency reserves. \$4M was anticipated but the additional \$1.9 will need to come from reserves.

General Fund Highlights of Revenue Changes:

The final adjusted estimated revenues in the General Fund include a total reduction of \$1.7M. These include the following decreases:

- ❖ Sales tax revenues have continued to decline because of continuing weakness in the consumer economy, including tepid employment markets, declining household incomes, and depressed consumer confidence. The result has been a drop in consumer spending which has impacted sales taxes revenues. A 3% decrease from the original estimate is required which amounts to a reduction of \$200K. Retail sales appear to have bottomed out, and the City may finally see modest growth in FY 12 as fuel prices and business activity increase.
- ❖ Property tax revenues continue to slide downward. Property tax revenues tend to trend downward even after economic recovery commences due to the belated assessment billing and collection process. Property tax assessments have been reduced as property values are marked to market by the assessor's office as a result of transactions or assessment appeals. Based on current trend, an 8% decrease from original estimate is required which accounts to a reduction of \$362K.
- The City's share of the In Lieu Property Tax (VLF SWAP) and In Lieu Property Tax (Sales Tax-Triple Flip) for this fiscal year is below the original estimate. As with the property tax revenues, these revenues decline in proportion with the reduction of property tax assessments. Based on updated information received from the County last December, a 6% decrease from original estimate is required which accounts to a reduction of \$646K.
- ❖ Police Traffic Division and RUSD Contract revenues are below projections. Vacancies in personnel affect the revenues to generate fines/fees from Parking, Towing and Impound, and RUSD Contract for School Resource Officers (SRO). Also, the 429 W Rialto PD Annex facility to hold the Impound Program will not open until the next fiscal year. These amount to a reduction of \$430K.

The chart below illustrates the trends in the City's General Fund revenues. The FY11 and FY12 estimates illustrate the multi-year economic slide negatively affecting General Fund revenues. Current revenues have returned to FY05 levels.

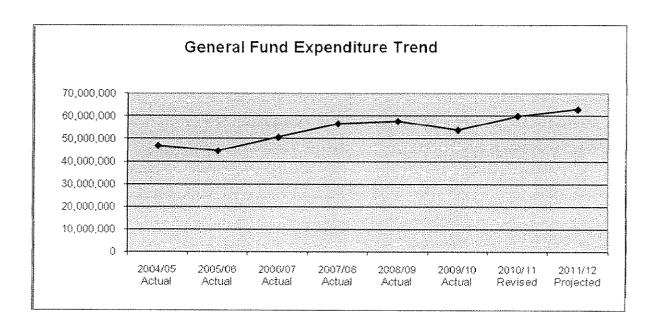

General Fund Expenditures:

The final adjusted appropriations in the General Fund include a net increase of \$220K. These include the following increases:

- A new pension plan was implemented in December, 2010. To date, 51 employees have separated since the beginning of this fiscal year; 40 of those positions are salary and benefit savings to the General Fund which amount to a decrease of \$2.4M in expenditures. Other funds have experienced a decrease in expenditures of \$300K. The cost associated with the separation of all personnel was not included in the adopted budget. This pertains to the cash out of their remaining sick and vacation balances pursuant to their MOU. These benefits amount to an increase of \$2.5M in expenditures, with 100% being charged to the General Fund. Including vacant/unfunded positions before the beginning of the fiscal year, the City's workforce has shrunk by a total of 103 positions or 23% of the FTE budgeted workforce; 68 of those positions are from the General Fund. The net effect of these adjustments is an increase in expenditure of \$100K.
- ❖ The increases in the expenditure budget of the remaining \$120K substantially come from Police (increase of \$90K for legal costs) and Human Resources (increase of \$15K for Public Safety's recruitment for next fiscal year's positions).

The chart below illustrates how expenditures have continued to grow throughout the years. The revised costs for FY11 include mid-year reductions and adjustments along with the increased costs due to employee separations.

Costs in FY12 and beyond are expected to increase significantly as a result of rapidly increasing labor costs. The confluence of declining revenues and increasing costs creates a sizable challenge for the City to adopt a structurally balanced budget.

General Fund Reserves:

The reserve policy acknowledges that the General Fund is ultimately responsible for any deficiencies that arise in the General Fund and other City funds (i.e. the Recreation, landscape maintenance districts, etc.). The City Council adopted reserve goal is 50% of the expenditure budget. The contingency reserve at June 30, 2010, was \$34.1M per the audited financial statements. Of this reserve amount, only \$7.8M would be available for unplanned contingencies as the remaining reserve has either been designated, assigned or Council has given direction for these reserve amounts.

The beginning available resources of \$4.6M, as stated in the "Summary by Fund" attachment, was set aside at the end of the last fiscal year from reserves to allow the City to meet the approved budget, and the obligations of encumbered purchase orders and capital budgets, which were carried forward.

After mid-year review was completed, revenue losses of \$1.7M (net) and expenditure increases of \$220K (net) are being recommended. The end result is that expenditures will exceed revenues by \$6.5M. By year end, based on budget and the use of the specific reserves described above, an additional deficit of \$1.9M is being projected, which will need to be funded from General Fund Contingency reserves.

Other City Funds:

- ❖ Special Revenue funds show a decrease in revenues of \$950K mostly due to the development impact fees associated with the Telacu III project being pushed out to FY2011-12.
- ❖ The Traffic Congestion Relief Fund shows an increase of \$250K in expenditures to assist in funding CIP projects such as Foothill Improvements, Slurry Seal and Overlay & Widening projects.
- ❖ The Wastewater Fund shows a decrease in revenues of \$500K mostly due to the development impact fees associated with the Telacu III project being pushed out to FY2011-12.
- ❖ The Water Fund shows a reduction in expenditures of \$440K due to the completion of East Watermain project (\$240K) and an updated RUA Contract transfer to the General Fund. Additionally, RUA has salary savings from current employees who separated this fiscal year.
- ❖ The Redevelopment Agency (RDA) funds show a net decrease of \$1.3M after all the mid-year adjustments. The gross assessed valuation for added territory has declined by approximately 12% from FY10 and half-year results reflect declining tax increments. A reduction in the tax increments have been made for \$1.5M. As reflected in the available resources page titled "Summary by Fund", the RDA will use \$47M of available resources, which are bond proceeds received in prior years.

Future Budget Challenges:

- As part of the Fiscal Year 12 State of California budget proposal, Governor Brown proposed a complete elimination of redevelopment in California. The elimination of RDA would slow statewide economic recovery. The City's impacts could include indefinite postponement of the Renaissance Rialto project, eliminate of future affordable housing projects and owner-occupied rehabilitation programs, and substantial reductions in general infrastructure projects. Efforts to encourage business development for new and existing businesses would be reduced. In addition, the Agency contributes approximately \$1.5 million per year to the City general fund for fixed overhead and this transfer will be eliminated effective July 1, 2011 under the Governor's proposal.
- * Employee Benefit Costs continue to rise. These retirement, health care, and other post-employment benefits have been very generous to the employees but the City's costs have risen by more than 300%. In the future, the City will need to consider a more equitable distribution of the costs and benefits between the employee and employer.
- ❖ Overtime costs in the Fire Department remain an area of concern. With staff levels based upon the "Constant Staffing" model, overtime has gone up dramatically. This is compounded by staffing shortages. In the current fiscal year, estimated overtime for the Fire Department is nearly \$2.5 million. With the current staffing levels and the continued use of the constant staffing model, the amount needed for overtime is expected to increase.

* Over the past few years, the City has continued to cut the Capital Projects budget in order to support operations. As a result, funds may be unavailable should something come up that needs immediate attention. Last year when the air conditioning systems went out in the City, there was not enough budgeted funds available to fix the systems. As a result, the City had to take money from an unbudgeted source. Capital Projects are an essential and unavoidable cost of doing business and the City can only postpone the inevitable for a short period of time. Eventually capital will need to be expended to replace aging facilities and equipment, or even greater costs will be incurred with maintenance and repairs.

Conclusion

The City's budget challenges are significant. Because revenues have declined by approximately \$7 million from recent peaks a few years ago, while expenditures have increased by \$12 million, the City has a substantial structural deficit heading into the FY 12 budget year. Actions of the state and federal government may also have significant budgetary implications. Staff and Council will soon be addressing these issues as part of the FY 12 budgetary review process.

The mid-year process provides the City with a method for fine-tuning and managing the budget. Most of the changes recommended are due to impacts of the economy while some are technical in nature. All the departments were involved in reviewing the budget and making recommendations. The impacts of the economy have been considered with the recommendations presented.

ENVIRONMENTAL IMPACT:

None.

LEGAL REVIEW:

The City/Authority/Agency Attorney has reviewed and approved the staff report and resolutions.

FINANCIAL IMPACT:

Funds have been reviewed and analyzed. The recommended adjustments to estimated revenues and expenditure appropriations are based on current trends and additional information from the State, County and available resources. The attached Exhibits provide account numbers, recommended adjustments and a description of the adjustments.

Interim Chief Financial Officer

City/Authority/Agency Attorney

RECOMMENDATION:

Staff recommends that City Council, Rialto Utility Authority and Redevelopment Agency approve the Resolutions amending the City, Rialto Utility Authority (RUA) and Redevelopment budgets as detailed in the exhibits.

Attachments:

- 1) City Resolution & Exhibit A This Resolution and Exhibit detail the recommendations for Council action to adjust estimated revenues and expenditure appropriations for various City funds.
- 2) **RUA Resolution & Exhibit A** This Resolution and Exhibit detail the recommendations for Council action to adjust estimated revenues and expenditure appropriations for the Rialto Utility Authority funds.
- 3) **RDA Resolution & Exhibit A** This Resolution and Exhibit detail the recommendations for Agency Board action to adjust estimated revenues and expenditure appropriations for the Redevelopment Agency.
- 4) Summary by Fund This schedule shows available beginning resources, the impact of the current budget and the recommended budget adjustments, and the resulting ending available resources. The beginning available resources column was determined based on an analysis of available working capital, undesignated and unreserved fund balances and available cash balances as of June 30, 2010. This schedule provides a conservative outlook of the status of each fund assuming all budgeted revenues and expenditures occur as projected.

Prepared by: Donna Vickers, Interim Chief Financial Officer Caroline Cruz-Contreras, Acting Senior Administrative Analyst

RESOLUTION NO. 1 2 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF 3 RIALTO, CALIFORNIA, AMENDING ITS FISCAL BUDGET FOR 2010-2011 4 5 6 WHEREAS, the budget for fiscal year 2010-2011 of the City of Rialto has been adopted by this 7 Council in its original form, and said budget will need to be amended at times to fulfill the goals of the 8 City; and 9 WHEREAS, the City departments may not exceed their appropriations by character of expense, 10 with character of expense being defined as personnel services, services and supplies, capital outlay, debt service and transfers, without the consent of the City Administrator; and 11 12 WHEREAS, the City Administrator may transfer appropriations, between departments and 13 within their respective funds, as long as those appropriations do not exceed their fund total unless 14 approved by Council; and 15 WHEREAS, the City departments may not hire in excess of the approved number of positions in 16 job classification as indicated by the budget detail without the consent of the City Council; and 17 NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF RIALTO DOES 18 HEREBY FIND, DETERMINE, AND RESOLVE AS FOLLOWS: 19 Section 1: That the City Council of the City of Rialto amends its 2010-2011 fiscal budget as 20 defined in Exhibit "A" per the Mid Year Review recommendations. 21 //// PASSED APPROVED AND ADOPTED this _____ day of ______, 2011. 22 23 24 25 GRACE VARGAS, Mayor 26 27
